Mechanical Engineer with expertise in Mechanical and Industrial design, PDM, and PLM. Skilled in efficient Design and engineering project management and CAD software customization for optimal product development and design. Experienced in parametric modeling and drafting and well-versed in industry standards. Driven to achieve company goals and shape the future of relevant fields. Looking for an opportunity to demonstrate CAD proficiency and add value to a dynamic organization.

SKILLS

- **Key Skills**
  - Mechanical Design Principles
  - Product Design & Development
  - Manufacturing Processes
  - DFMA
  - GD&T
  - 3D Modeling and Parametric Design
  - Systems and Mechanisms
  - Automation and Customization
  - Design Standards and Regulations
  - Project Management
  - BOM for Manufacturing Design
  - PDM & PLM
  - Mockup Design & Prototyping
- **Programming Language**
  - C, C++, C#
  - Python
- **Office Package**
  - Word, Excel, PowerPoint
  - Project
- **Soft Skills**
  - Adaptability
  - Communication
  - Teamwork
  - Analytical & Problem-solving
  - Leadership
- **Software Skills**
  - CAD Software –
    - Autodesk AutoCAD
    - Autodesk Inventor
    - SolidWorks
    - Siemens NX
  - PDM/PLM Software –
    - Teamcenter Rich Client
    - Aton
  - FEA & Simulation Software –
    - Ansys
    - COMSOL Multiphysics
  - Rendering Software –
    - KeyShot

WORK EXPERIENCE

BJIT Ltd. *Dhaka, BD*

Senior Mechanical Design Engineer *Oct 2021 - Present*

- Demonstrated excellence in 2D/3D modeling using Siemens NX, ensuring 99% accuracy while meeting design specifications.
- Successfully implemented innovative solutions with Teamcenter PLM, resulting in a 25% reduction in design cycle time and effectively addressing complex business needs.
- Managed and led cross-functional teams of up to 5 engineers, successfully delivering Mechanical Design Engineering projects within budget and timeline constraints.
- Utilized various Design Tools, Macros, and automation techniques in Siemens NX, achieving a remarkable 30% increase in productivity and efficiency across multiple projects.
- Conducted thorough reviews, provided constructive feedback, and mentored team members, leveraging PLM capabilities to ensure high-quality deliverables meeting global standards of over 90%.
- Effectively collaborated with team members, clients, and stakeholders, ensuring clear project requirements, issue resolution, and strong working relationships throughout the project lifecycle.

BJIT Ltd. *Dhaka, BD*

Mechanical Design Engineer *Sep 2018 - Sep 2021*

- Demonstrated exceptional proficiency in 2D and 3D modeling with Siemens NX, consistently delivering accurate design representations that surpassed 99% of specifications.
- Spearheaded the implementation of inventive technical solutions, resulting in enhanced product functionality and performance, a remarkable 30% increase in customer satisfaction, and a 20% reduction in costs.
- Collaborated with cross-functional teams and stakeholders, effectively presenting design concepts and incorporating valuable feedback to achieve the objectives.
- Used Teamcenter for streamlined design processes, version control, and collaborative efficiency, resulting in a notable 25% reduction in design cycle time and a 15% improvement in overall quality.

Pran-RFL Group. *Dhaka, BD*

Design Engineer *Sep 2017 - Aug 2018*

- Applied CAD software to design various household and office products for injection and blow molding processes. Implemented innovative and functional designs that contributed to a 20% increase in sales.
- Generated digital mockups and prototypes of designed products, ensuring high accuracy and feasibility with a success rate of 95% during testing and evaluation.
- Exhibited proficiency in material selection and product testing, guaranteeing adherence to industry standards for quality and compliance. Achieved over 90% customer satisfaction rating and reduced defects by 15%.
- Collaborated with cross-functional teams for efficient product development and launch, delivering products within budget and timeline constraints and exceeding expectations by 25%.

EDUCATION

Khulna University of Engineering & Technology (KUET). *Khulna, BD*

BSc in Mechanical Engineering *Mar 2013 – Mar 2017*

- Demonstrated academic excellence and ranked among the top performers.
- Mentored members of LOOP (Control Engineering Club), enhancing their knowledge and skills.
- Optimized resource allocation and IT efficiency as the Resource & IT Officer for CADers (CAD Club).
- Conducted comprehensive AutoCAD and SolidWorks training workshops, equipping over 50 students.

LANGUAGE

- Bengali (Native)
- English (Professional working proficiency)

CERTIFICATIONS & AWARDS

- **Google Project Management Certificate** *Mar 2023*
  Coursera | Google
- **SOLIDWORKS Champion** *Nov 2021 - Present*
  Dassault Systèmes
- **Certified Solidworks Expert**
  Dassault Systèmes
  - **CSWE–Mechanical Design** *Jul 2021*
- **Certified Solidworks Professional**
  Dassault Systèmes
  - **CSWP–Mechanical Design** *Dec 2021*
- **Certified Solidworks Professional Advanced**
  Dassault Systèmes
  - **CSWPA-Surfacing** *Oct 2021*
  - **CSWPA-Drawing Tools** *Mar 2021*
  - **CSWPA-Sheet Metal** *Apr 2021*
  - **CSWPA-Weldments** *Apr 2021*
