PROFILE

Mechanical Design Engineer experienced in research, development, design, and manufacturing of Machine parts, Plastic products, Mold design, Weldments, Advanced surfacing, Sheet Metal products. Qualifications include Mechanical Design, Advanced Surfacing, Mold Design, Weldments, Sheet Metal and Drawing Tools certifications, expertise in AutoCAD, SolidWorks, Autodesk Inventor, Siemens NX, FreeCAD etc. CAD software, and comprehensive knowledge of CAD, CAM, CAE and Manufacturing process.

EXPERIENCE

BJIT Ltd.
Senior Mechanical Design Engineer
Sept 2021 - Continueing

- *Get requirement on design scope – implement 2D, 3D modeling.*
- *Develop most effective technical solutions to meet business requirements on Design and modeling.*
- *Manage communications with bridge engineers for single person Mechanical Design Engineering project.*
- *Work with multiple Design Tool, Macro and design automation in different projects.*
- *Review team members, provide feedback on design and model.*
- *Manage release and delivery.*
- *Increase quality and productivity of deliverables that match with global standard quality and productivity.*
- *Performance evaluation of Mechanical Design Engineers in the team.*

Mechanical Design Engineer
Sept 2018 - Sept 2021

- *Get requirement on design scope – implement 2D, 3D modeling.*
- *Develop most effective technical solutions to meet business requirements on Design and modeling.*
- *Work with specific Design Tool in assigned project.*
- *Work with Macro and design automation.*
- *Increase quality and productivity of deliverables that match with global standard quality and productivity.*
- *Attend all organizational meeting, general training (soft skill, communication, security etc.).*

Pran-RFL Group.
Design Engineer
Sept 2017 - Jan 2018

- *Supported engineering design development through analysis and simulation of prototypes and 3D computer models.*
- *Collaborated with cross-functional teams to conceptualize and refine product concepts.*
- *Sketched outline designs and used CAD programs to create detailed designs and specifications.*
- *Developed assembly processes for products requiring multiple parts to be fitted on-site.*
- *Generated solid models and drawings for production-ready custom fixtures and components.*
- *Tested completed projects for functionality and implemented changes to production methods to rectify issues in final products.*

EDUCATION

Bachelor of Science in Mechanical Engineering
2013-2017

Khulna University of Engineering & Technology
Ranked in Top 10% of class
CGPA 3.55 out of 4

Higher Secondary School Certificate
2011-2012

Sherpur Govt. College
Science
GPA 5.00 out of 5

Secondary School Certificate
2005-2010

Varera S.P. High School
Science
GPA 5.00 out of 5
